

HI! MY NAME IS PERCY. I'M A FUYU PERSIMMON! I'M SO SWEET, YOU'D NEVER KNOW THAT I'M REALLY GOOD FOR YOU.

Persimmons are a fruit from China, that were also grown in Japan. The first Persimmon seeds came to California in 1856.

There are two main kinds of Persimmons: FUYU (Foo-Yoo) and HACHIYA (Ha-CHI-ya). Fuyu Persimmons can be eaten raw like other fruits, but Hachiya Persimmons are best when you cook them!

Which Persimmon should you choose?
